

# EDUCRAT BINGO

mile wide, inch deep	lifelong learning	mere facts	rote learning	exhibitions
at their own pace	break the mold	engaged	cooperative learning	teaching for understanding
textbook learning	portfolio assessment	RESEARCH SHOWS...	critical-thinking skills	teach the child, not the subject
learning by doing	project method	facts are soon outdated	factory-model schools	authentic assessment
sage on the stage	whole-class instruction	developmentally appropriate	regurgitation of facts	child centered

less is more	inquiry learning	brain-based	teach to the test	constructivism
balanced reading	multiple intelligences	learning to learn	performance- based assessment	individual differences
discovery learning	individual learning styles	HIGHER-ORDER SKILLS	problem-solving skills	competition
facts are inferior to understanding	individualized instruction	thematic learning	transmission theory of schooling	intellectual capital
Piaget	hands-on learning	drill and kill	reform	accessing skills

You and a friend can now pass the time at a progressivist education seminar with these handy EDUCRAT BINGO cards. Decide your game beforehand, such as simple five-in-a-row for a "brown bag" lunch, all the way to a coverall for an in-service. Cover a square when you hear the matching catch-phrase. Good luck!
